

# KENYA

IYNC BoD Meeting, Jun. 15<sup>th</sup> 2013, Stockholm

Pamella Kageliza, Graduate student  
Institute of Nuclear Science, University of Nairobi

# Kenya

## Basic information of our organization

- Currently we do not have nuclear society in Kenya
- However, matters related to nuclear and technology are handled by any of the following institutions;
  - Kenya Nuclear Energy Board
  - Radiation Protection Board
  - National Council of Science and Technology
  - Institute of Nuclear Science and Technology
- We intend to have one soon

# Nuclear Outlook - Kenya

## Societal attitude towards nuclear science and technology

- Ignorance- Nuclear means war and disaster
- Misinformation – Have wrong information i.e. information that is not relevant, not reliable and not valid
- Lack of formal education- No proper education programs
- Lack of interest – It is perceived to be too complex that it can only be handled by rocket scientists
- Know it all attitude among the learned few

# Activities - Kenya

## Past activities

➤ None

## Future activities

- Mobilize stakeholders for a meeting
- Register a young generation nuclear network
- Create forums to sensitize the public about usefulness of nuclear

# Request for Grant – Kenya

- Grant to mobilize the stakeholders, register a society, and planning of initial activities.
