

Innovation for Nuclear

I4N Rules

IYNC- Innovation Contest : I4N 2020

Purposes of I4N :

- Reward innovative ideas focused on nuclear technologies or applications that will contribute to the United Nations Sustainable Development Goals
- Give a platform for the visibility and discussion of these ideas
- Canalize young energy into thinking about and creating innovative solutions

What about I4N 2020 :

- The competition will be taking place at the IYNC Congress in Sydney, Australia
- For this second edition, IYNC aims at having more partners (national or regional nuclear innovation contest) and from all around the world.
- Winners from contests partners will be eligible to participate in this world-wide competition and will receive a financial aid for travel expenses
- Two categories of ideas will be rewarded : (1) technological or research project and (2) organizational or societal project.

IYNC- Innovation Contest : I4N 2020

Contest Frame :

- The I4N contest is open to young professionals and students of nuclear technologies (up to and including 40 years old at the time of the IYNC contest in Australia).
- The I4N awards the two best innovative idea for nuclear application in the frame of nuclear for sustainable development.
- Participating teams are chosen from the winners of partner contests.
- The final list of participating teams will be announced in December 2019.
- IYNC will provide a travel grant to each participating teams to attend IYNC2020 in Australia.
- At least 1 participant of each team must participate in the contest in Australia in order to be evaluated and have the possibility of winning I4N 2020.

IYNC- Innovation Contest : I4N 2020

I4N contest Description :

- The final winners will be chosen by a jury of experts selected by the IYNC innovation committee during the dedicated event in the IYNC2020.
- Participants must present their idea to the jury by a PPT presentation or similar.
- Presentation time will be 15 minutes, followed by 10 minutes of Q&A session.
- Priority will be given to the questions from the jury, followed by the questions from the audience.
- The language of the contest, including presentation, materials, and questions will be English. Although presentation skill will be evaluated during the contest, proficiency in English will not be a limiting factor.
- Participants will be evaluated on the following 4 evaluation criteria.

IYNC- Innovation Contest : I4N 2020

Evaluation criteria:

1. Presentation (/6): Clarity, Presentation organisation, Interaction with Audience and jury, Timing, Capability of answering questions. Interactivity, video and prototypes are also points of merits to be considered during the presentation
2. Innovation contribution (/4): Forward Thinking, Creativeness, Resolution of current problems and limitations
3. Applicability of idea (/6): Possibility of bringing the idea to effective action by using various resources in an undefined time scale, Business plan proposal, Individuation of possible stakeholder interests, Depth of research, Quality of arguments and analyses
4. Contribution to sustainability (/4): Contribution of the innovation to the sustainable goals as described by UN :
<http://www.un.org/sustainabledevelopment/sustainable-developmentgoals>

IYNC- Innovation Contest : I4N 2020
